

## EOC Group receives Silver Medal Sustainability recognition level from EcoVadis

*Since 2013, EOC Group participates in EcoVadis' yearly suppliers' CSR evaluation program. We are proud to announce that with the most recent evaluation, EOC Group has obtained a Silver Medal which places the company in the top 30% suppliers evaluated by EcoVadis.*

It is known that EOC Group always strives to meet its customers' highest expectations. Those needs do not only concern the impeccable quality of the products. Today's customers also expect a vast commitment to sustainable management from their suppliers. An economical ambition that coincides with ecological responsibility and social progress. A good supplier is a supplier that not only delivers excellent products and services, but who also cares about the world around him and the people who work for him.

EOC Group's membership with EcoVadis shows our commitment to always keep improving in every aspect of our business management. A yearly evaluation from the EcoVadis experts gives us the feedback we need to proceed and excel in our sustainable management.

With the 2016 evaluation, EcoVadis recognizes the steps that EOC Group has taken over the past year. Those efforts are rewarded with a higher score and a Silver Medal Certificate, which places EOC Group in the top 30% suppliers evaluated by EcoVadis.

We highly appreciate this recognition and regard this as a motivation to keep on improving.

For more information on the EcoVadis certificate, you can contact the EOC Group Quality Assurance Division:
