

Oudenaarde, March 20th 2020

Dear Customers,

Update COVID-19 –

As we are experiencing this corona-virus situation, the priority is a focus on and a safeguard of health.

As EOC is taking its responsibility to society, its customers and its staff, additional safety precautions have been taken to contain the spreading of the virus amongst our staff and partners . As a result, physical contacts are excluded until further notice but the entire team is available to answer questions and keep the business going.

The supply of our customers is a top priority of EOC and therefore continues its production activities.

However if there would be any issues of delays in the availability of raw materials, availability of staff and logistics possibilities, we will inform you about the new situation.

EOC cannot be held responsible but every effort will be taken to minimize the damage.

If you have any questions whatsoever, don't hesitate to contact us.

Thank you for your understanding and keep it safe !

Best regards

Gerard Marsman

CEO
